

PaperCut[™]

Simple, powerful print management

A CUSTOMER GUIDE TO PAPER CUT MF

Top of the class in easy, cost-effective printing for schools

Whether you call it elementary, primary, junior, grade, middle, or high school, simplify printing campus-wide to maximize budgets and focus on what matters most: education.

Challenge

Schools want to print with minimal IT involvement, full visibility, and top-notch security. Moreover, it all needs to be easy for students while promoting sustainable, cost-effective habits.

So if you have ...

- ▶ stacks of wasted print jobs piling up
- ▶ students and staff printing with no accountability
- ▶ support requests racking up more hours than the day allows
- ▶ sensitive documents that need securing before, during, and after print

... PaperCut MF is the solution for you.

Within 10 minutes, Mobility Print was installed on all our Chromebooks. I didn't deal with a single Chromebook printing issue all year.

Dallastown Area School District

All these mobile devices we'd invested tons of money in, we couldn't use. Along comes Mobility Print and bada-boom: our problems are gone.

York Region District School Board

A+ Google printing

As a Google Cloud Partner, we've optimized PaperCut MF to work brilliantly with Chromebooks, and integrate seamlessly with Google tools like G Suite, Google Drive, and Google Docs.

Solution

PaperCut MF delivers simpler-than-ever printing that protects student data, cuts costs, and reduces waste. Harnessing a cross-platform and vendor-neutral approach, it's the industry's go-to tool that just works – no matter your size, printers, operating systems, or BYOD devices.

1. Save money and the planet

PaperCut MF's flexible policies encourage duplex and B&W printing, send large jobs to efficient printers, and double-check if jobs should get the green light. You can also allocate quotas to students and departments to restrict overuse and bring costs front of mind.

2. Gain insights to improve accountability

PaperCut MF's 80+ built-in reports let you review behavior based on user, class, or department to identify and fix trouble areas. Every report can be generated ad hoc or scheduled to suit; and you can even create your own with custom filters and ranges.

3. Free up time for admin and students alike

PaperCut MF helps IT with self-setup BYOD printing from any laptop, Chromebook, tablet or mobile phone, automated reports, and quick syncing through Google, Active Directory, Azure AD, and more. Need a bit of guidance? Get DIY fixes from 700+ Knowledge Base articles, or reach out to a global network of support staff and partners in your timezone, and often around the corner.

Top MFD usability also lets students select accounts, change job settings, and collect jobs at any printer. Teachers and students can also scan straight to folders and cloud storage; and even search and edit smart scans created with OCR (optical character recognition).

4. Double down on data protection

With PaperCut MF, jobs only release when the user authenticates at the printer, drastically reducing uncollected printouts. You can also safeguard data physically and electronically with end-to-end encryption, and protect ownership with watermarks and digital signatures.

Benefit

4 ways PaperCut MF enhances the print environment at your school

1. Drastically reduce waste to save money and the environment

2. Increase accountability based on new-found visibility

3. Cut down printing admin so you and your students can focus on what matters most

4. Secure your printing and maintain confidentiality so you can rest at ease
